UPCOMING STAKEHOLDER SURVEY

Later this year, landowners and community members along the project route can expect to receive a short survey about their experience engaging with the Three Corners Connector team. This feedback will help Three Corners Connector understand what is working well and how to improve local communication and engagement. Three Corners Connector encourages participation and will share details on how to take part when the survey is available.

IN THE COMMUNITY

Oklahoma Public Meetings

In March, Three Corners Connector hosted public meetings in Boise City, Oklahoma, and Guymon, Oklahoma. These meetings were held as part of the project's Certificate of Authority application review process under the Oklahoma Corporation Commission, to encourage stakeholder participation and gather feedback on the project. Thank you to everyone who attended. To see the information displayed at the meetings, the poster boards are located on the Three Corners Connector website: **threecornersconnector.com/materials.**

Stakeholder Appreciation Dinners

In late July, Three Corners Connector hosted stakeholder appreciation dinners across the project area: in Guymon, Oklahoma, and Springfield and Fowler, Colorado. These gatherings gave landowners and stakeholders a chance to ask questions about the project and connect with the team in person. Three Corners Connector values every opportunity to connect with the landowners and communities hosting the project.

Guymon Pioneer Days

In May, Three Corners Connector participated in Guymon Pioneer Days for the third year in a row. Guymon Pioneer Days is one of Oklahoma's oldest and most celebrated community festivals, bringing together residents and visitors each year to honor the region's ranching, agricultural, and pioneer heritage. The multi-day event features parades, rodeo activities, live entertainment, and family-friendly attractions that showcase the spirit and traditions of the Oklahoma Panhandle. Three Corners Connector is grateful for the opportunity to once again participate in an event that showcases the Panhandle's local culture and pride.

PROJECT UPDATES

Permitting Overview

Three Corners Connector is progressing on acquiring all permits required before project construction. Three Corners Connector will also continue to engage with federal and state wildlife agencies to avoid or minimize impacts on special-status species.

The map below details updates for Colorado county permits and the Oklahoma state permit:

Colorado

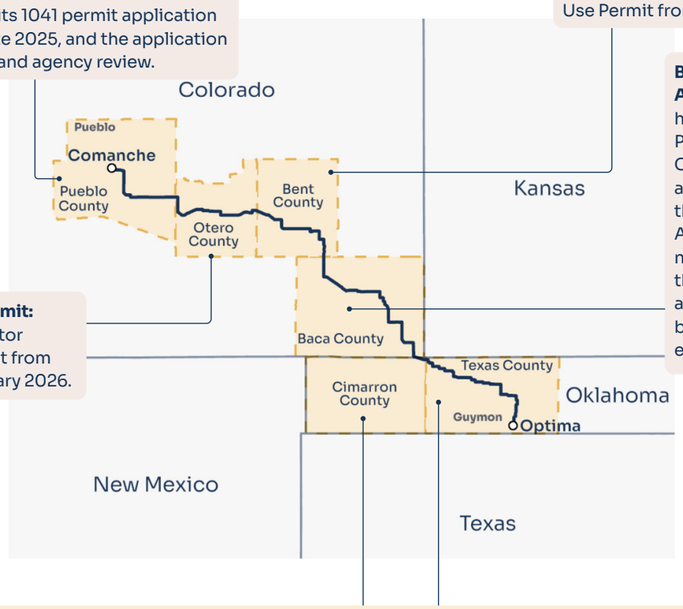
Three Corners Connector applied for its county permits in Colorado, which include Special Review Use permits and 1041 permits. These permits are issued once a county has evaluated a proposed project's land use and its associated economic, environmental, and community footprint. A project may begin construction upon obtaining them.

Pueblo County 1041 Permit: Three Corners Connector submitted its 1041 permit application to Pueblo County in late 2025, and the application remains under county and agency review.

Bent County Special Review Use Permit: Three Corners Connector received its Special Review Use Permit from Bent County in late July 2026.

Baca County Development Agreement: Baca County does not have a 1041 or Special Review Use Permit process in place, so Three Corners Connector is negotiating a Development Agreement with the county. The Development Agreement functions as a custom, negotiated land use agreement that will establish clear rules around how the project will be built, operated, and maintained, enforceable by Baca County.

Otero County 1041 Permit: Three Corners Connector received its 1041 permit from Otero County in February 2026.



Oklahoma

On January 20, 2026, Three Corners Connector filed for its Certificate of Authority with the Oklahoma Corporation Commission (OCC). For Three Corners Connector, a Certificate of Authority will serve as the project's primary siting and public-interest approval at the state level and ensure ongoing oversight by the OCC.

The OCC held a hearing on June 17, 2026. The Administrative Law Judge (ALJ) heard testimony from Three Corners Connector and from the Commission's Public Utility Division, and members of the public submitted written comments to the docket during the proceeding. At the conclusion of the hearing, the ALJ recommended the application for approval. Three Corners Connector received its Certificate of Authority from the OCC in on July 29, 2026.

A copy of the application and hearing materials is available at **threecornersconnector.com/materials**.

Option Agreement Renewals

The first option period for Three Corners Connector's option agreements is expiring, so Three Corners Connector is actively renewing these agreements with participating landowners. Renewals are going out through a combination of mailed agreements and in-person meetings with our land agents.

THREE CORNERS CONNECTOR COMMUNITY INVESTMENT PROGRAM

Colorado

In partnership with the Southern Colorado Economic Development District (SCEDD), the Three Corners Connector Community Investment Program (3CC CIP) has now completed two rounds of grant funding for communities in Pueblo, Otero, Bent, and Baca counties. The first round, awarded in August 2025, directed $200,000 to nine organizations across the four counties. The second round, announced in April 2026, awarded another $200,000 to 14 projects across Southeast Colorado.

A local Community Advisory Committee reviews applications and recommends the awards; neither Three Corners Connector nor its developer, Grid United, determine grant recipients for the Colorado CIP. Individual grants are awarded up to $50,000. For more information, please visit **scedd.com/three-corners-connector-community-impact-fund**.

Recipient Spotlight

Bent County Historical Society, Boggsville Historic Site: Founded in 1866, Boggsville was an early agricultural, trade, and governmental center in Colorado's Arkansas Valley. The grant funds five RV pedestals and underground electrical service, expanding visitor access to the historic site and supporting local heritage tourism.

Oklahoma

In partnership with the Cherokee Strip Community Foundation, the 3CC CIP announced grant recipients from the spring 2026 grant cycle in July. More than $150,000 was granted across 14 organizations serving Texas and Cimarron counties.

Neither Three Corners Connector nor its developer, Grid United, determine grant recipients for the Oklahoma CIP. To find out more information on how to apply for the next grant cycle, please visit **cherokeestripcf.com/cip**.

Recipient Spotlight

Loaves and Fishes Food Cupboard of Guymon: Loaves and Fishes has operated as Guymon's emergency food pantry for decades, run by volunteers and supported by local businesses, churches, and individual donors. This grant, the largest in the spring cycle, funds food and supplies for the pantry's shelves.

Additional Community Donations and Sponsorships

Because Three Corners Connector will have a long-term presence in the region, the project focuses on building lasting relationships with landowners and local stakeholders. Three Corners Connector supported more than 50 community needs beyond the grant programs. Here are a few examples:

- Stand for Children
- Pueblo County Boys and Girls Club
- Pueblo Food Project
- Santa Fe Trail Days
- Arkansas Valley Fair
- Walsh School District Scoreboard
- Guymon ISD Athletic Department Travel Fund
- Oklahoma Panhandle State University Rodeo Team
- Texas County Fair and Livestock Show

As Three Corners Connector continues outreach and sponsorship efforts, please share any local events or organizations Three Corners Connector should get involved with.
